Importance: High

Change Control,

Any update on the questions below? Your assistance in providing a response to the questions below by COB today would be greatly appreciated.

Thank you,

Tyra Hush

Subject: RE: 5/14/02 User Requirements Review for UNE-P Call Scope
Changes (CR0756)

Change Management,

Please answer the following questions regarding this change management request and the attached documentation. Please copy the entire change control distribution with your answers.

1. What state issued the regulatory mandate for this change?
2. When were CLECs first informed that this change was being made.
3. If a CLEC wants to order UNE-P WITHOUT an extended local calling area, will they need to implement these new USOCs?
4. It appears that this change fixes some sort of "defect" in the current ordering process. The change request itself states that this is to add new functionality (item 15) but the Encore documentation states that this change request corrects an error where "currently, when converting retail/resale to UNE-P, the correct LNECLSSVC is not always populated on the conversion." Please explain the actual problem you are trying to correct in detail.
5. Does this problem exist in all BellSouth states or only some of them?
6. Does it impact all customers that are migrating to UNE-P or only those who currently have the extended local calling plan in each of the states of the region?
7. Will this change correct the following problem: CLEC customers in Georgia who have their Intra-lata PIC with a company other than BellSouth are still having their traffic carried on the BellSouth network. These call records are provided to the CLEC via the Daily Usage Feed rather than routed to the POP for the intralata carrier indicated by the customer's PIC.
8. When will this software be available in CAVE?
9. Is the July 13 release a maintenance release? What other changes will be incorporated in this release?

Sherry Lichtenberg
MCIWorldCom
